6. FIRE WEATHER CONDITIONS

Conditions across Oregon on April 7, 2026 are dry and unseasonably warm, with minimum relative humidity dropping to 18% in Central Oregon (Bend) and 21% in southeastern Oregon (Burns), posing elevated fire ignition and spread risk across interior portions of the state. Temperatures are reaching the upper 60s to mid-70s statewide, most prominently in southern Oregon where Medford is forecast to hit 75°F with afternoon RH minimums near 34%. Winds remain moderate statewide at 7–11 mph with gusts to 22 mph — below critical thresholds — but the combination of low humidity and warm temperatures has kept fuel moistures well below seasonal averages across eastern and central Oregon.
