6. FIRE WEATHER CONDITIONS

Mild spring conditions prevail across Oregon on April 6, 2026, with afternoon temperatures reaching the mid-to-upper 70s in Medford (77°F) and Portland (76°F). Relative humidity is notably low in south-central Oregon (Klamath Falls minimum 23%) and northeastern Oregon (La Grande minimum 24%), creating moderate fire weather potential in those areas despite the early season. Winds are generally light to moderate statewide at 8–14 mph with gusts to 17–19 mph in central and eastern Oregon. The overall fire weather risk remains low to moderate for early April, though continued below-normal snowpack and the warm spring pattern are accelerating fuel dry-out across interior valleys and eastern rangeland.
