6. FIRE WEATHER CONDITIONS

Mild spring conditions prevail across most of Oregon on April 9, 2026, though elevated fire weather concerns persist in portions of southwestern and eastern Oregon. Southwest Oregon (Medford) stands out with warm temperatures reaching the mid-70s°F, southwest winds of 24 mph with gusts to 35 mph, and relative humidity dropping to 38%, creating elevated fire spread potential. Eastern and south-central Oregon remain dry with minimum relative humidity of 20–21% in Burns and La Grande, though winds are lighter. Coastal and Willamette Valley areas see moderate humidity (27–56%) and calmer winds, keeping fire danger lower in those regions.
