## 1. STATEWIDE YEAR-TO-DATE SUMMARY

|                                                 |                    |                 |                                  |                          |                 |                        |
|-------------------------------------------------|--------------------|-----------------|----------------------------------|--------------------------|-----------------|------------------------|
| 2                                               | 0                  | 2               | 162                              | 0                        | 0               | 0                      |
| LARGE FIRES TRACKED<br>YTD (100+ acres or evac) | ACTIVE LARGE FIRES | CONTAINED FIRES | TOTAL ACRES YTD (Large<br>Fires) | STRUCTURES<br>THREATENED | STRUCTURES LOST | EVAC- TRIGGERING FIRES |

Current Evacuation Zones by Level — Active Large Fires Only

|                    |                  |                  |
|--------------------|------------------|------------------|
| LEVEL 1 — BE READY | LEVEL 2 — BE SET | LEVEL 3 — GO NOW |
| None               | None             | None             |

Criteria: fires ≥100 acres OR any fire triggering an evacuation order (any level). Last updated: 2026-04-13. Sources: ODF, OEM ArcGIS, InciWeb, NIFC, local media.

## 2. LARGE FIRES LOG — YEAR TO DATE

| Status      | Fire Name      | County    | Location                                                                                      | Discovered | Contained  | Cause                                      | Acres | Contain % | Peak Evac | Structures | Notes                                                                                                                                                                                                                                                                                                                                                                   |
|-------------|----------------|-----------|-----------------------------------------------------------------------------------------------|------------|------------|--------------------------------------------|-------|-----------|-----------|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ● Contained | Boardman Fire  | Morrow    | ~5 miles west of Echo / near Boardman                                                         | 2026-03-02 | 2026-03-02 | Escaped controlled burn (private farmland) | 150   | 100%      | None      | 0          | First wildfire of the 2026 Oregon fire season. Began as a controlled burn on private farmland that became uncontrolled. Boardman Fire Rescue District, Madison Ranches, and Morrow County Sheriff responded. No injuries or structure damage. Some reports cite ~60 acres from a separate earlier incident; 150 acres cited for the March 2 grass fire near Echo.       |
| ● Contained | Riverview Fire | Deschutes | Near La Pine — Riverview Drive / Timber Lane Loop / Bridge Drive area, Little Deschutes River | 2026-03-17 | 2026-03-17 | Escaped pile burn (confirmed)              | 12    | 100%      | Level 3   | 0          | Fire reported at 2:15 PM on March 17, 2026. Spread mostly halted by 5 PM. Level 3 (Go Now) evacuation issued for Riverview Drive area; Level 1 (Be Ready) for broader area. All evacuation orders lifted by 7 PM after containment. ~40 firefighters from 7-10 agencies responded. Fire prompted concerns about an early, dangerous fire season. Investigation ongoing. |

## 3. CURRENT EVACUATIONS & CLOSURES

✓ No active evacuation orders in effect for Oregon wildfires as of this report date.

## 4. COUNTY-BY-COUNTY SUMMARY

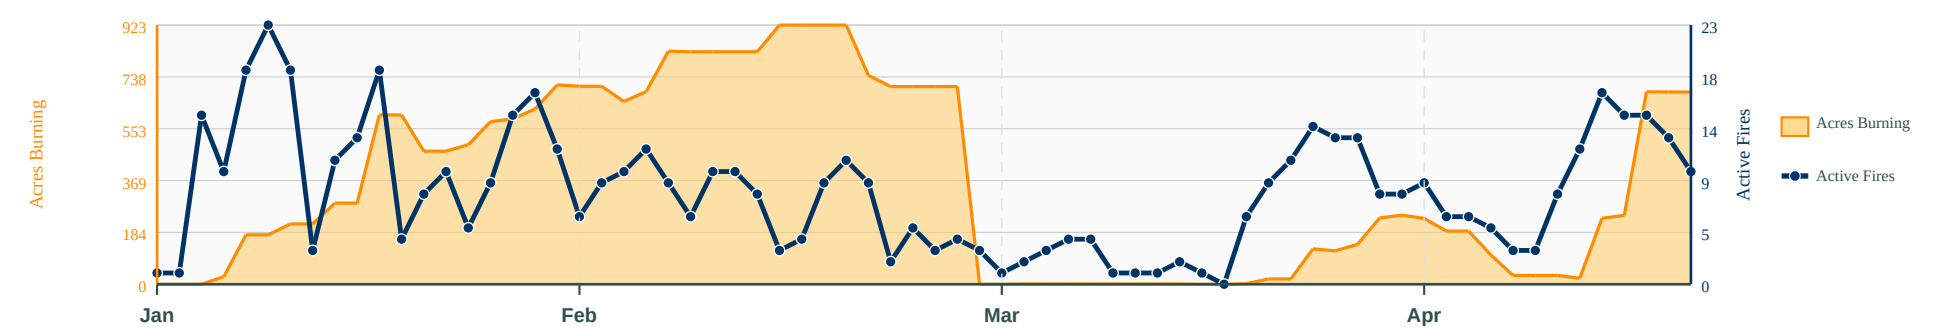

| County    | Total Fires (Tracked YTD) | Active | Contained | Total Acres | Evacuation Triggered | Notes                                                                               |
|-----------|---------------------------|--------|-----------|-------------|----------------------|-------------------------------------------------------------------------------------|
| Deschutes | 1                         | 0      | 1         | 12          | Yes                  | Fire reported at 2:15 PM on March 17, 2026. Spread mostly halted by 5 PM. Level ... |
| Morrow    | 1                         | 0      | 1         | 150         | No                   | First wildfire of the 2026 Oregon fire season. Began as a controlled burn on pri... |

5. FIRE WEATHER CONDITIONS

Fire weather conditions across Oregon are generally moderate on April 13, 2026, with cool temperatures ranging from the mid-30s to mid-50s°F statewide and relative humidity remaining elevated at 46–82%. The primary concern is southeastern Oregon (Burns), where gusty winds are reaching 25 mph with gusts up to 41 mph — the strongest in the state today — which could fan any new ignitions despite otherwise moderate conditions. Central Oregon (Bend) sees the lowest minimum humidity at 46% with moderate winds gusting to 22 mph, warranting continued monitoring. Coastal and western Oregon regions remain at low fire weather risk with light winds and high humidity.

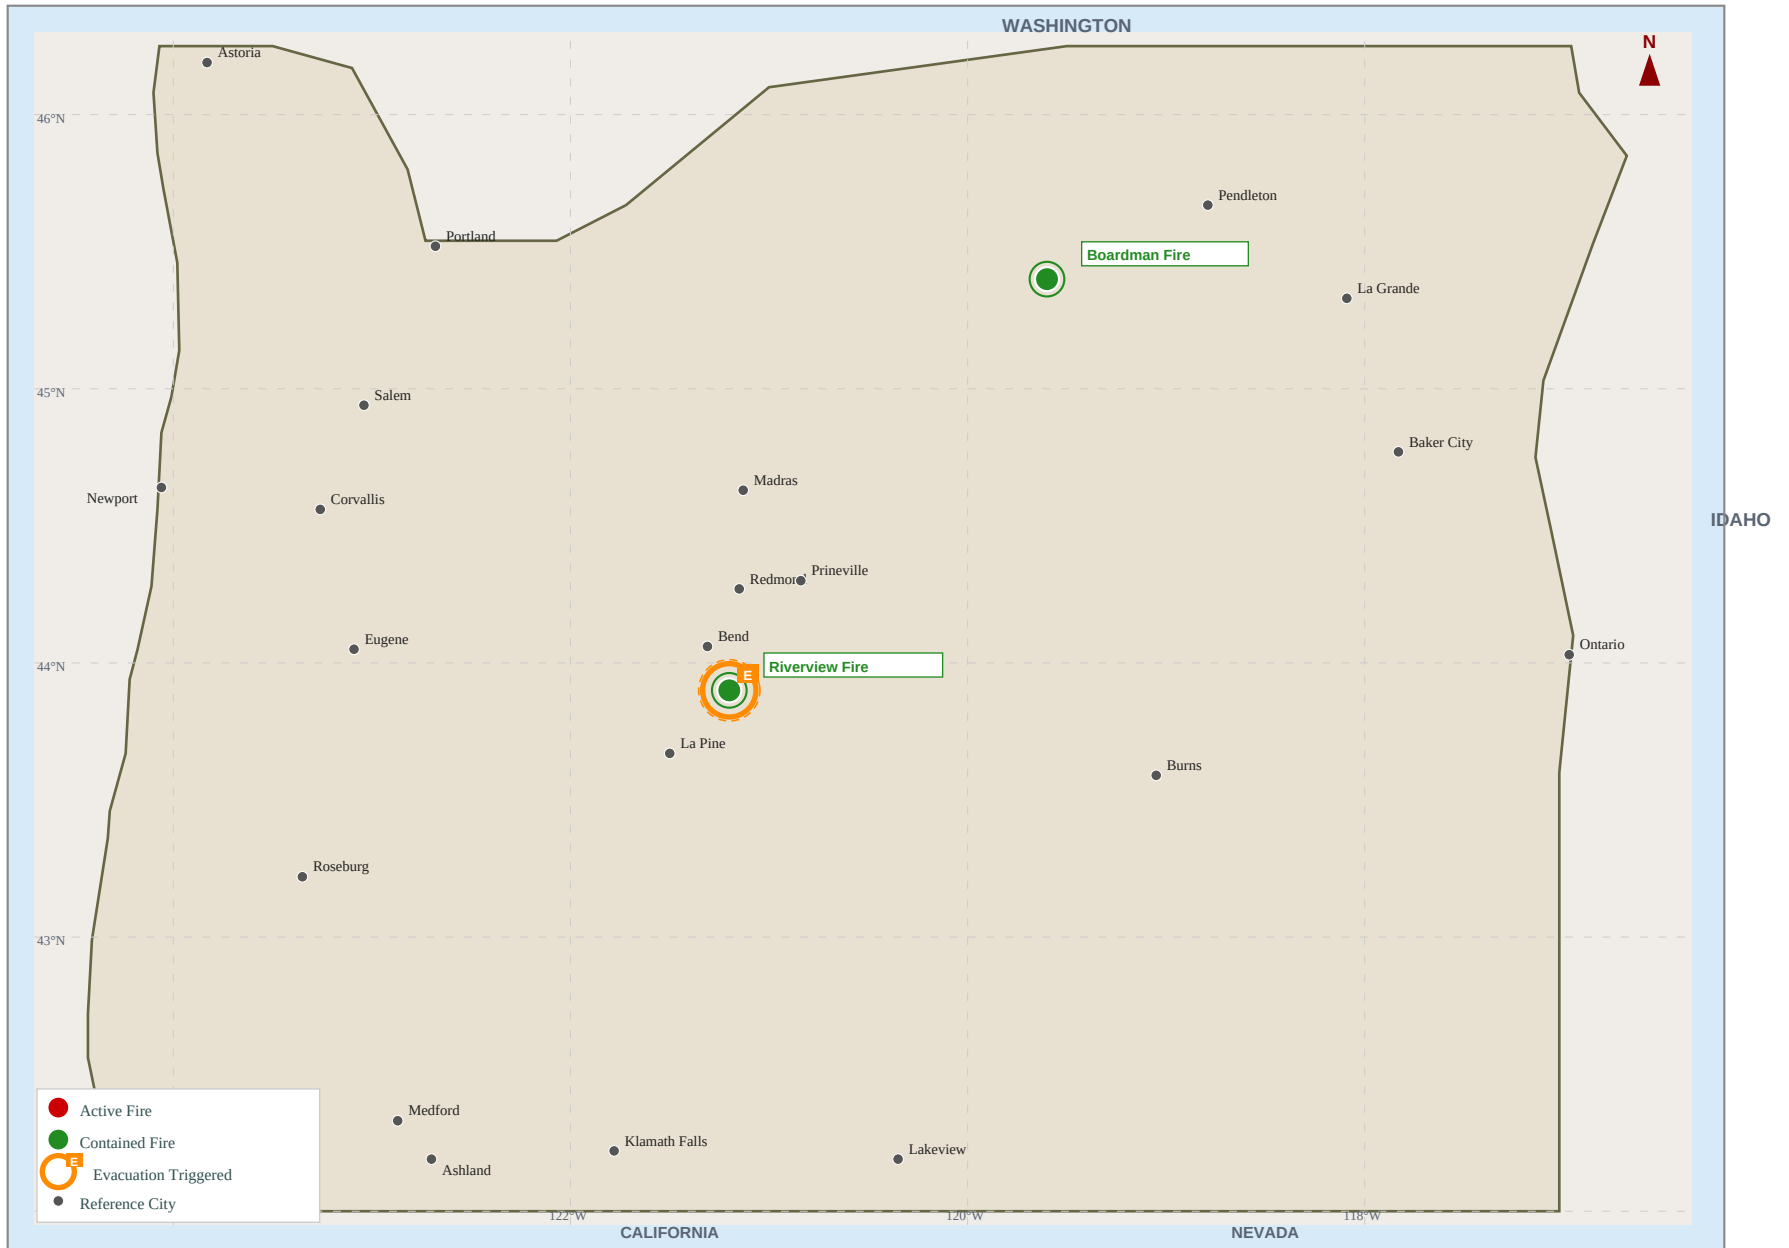

| Region                               | General Conditions | High Temp | Relative Humidity | Wind           | Fire Danger |
|--------------------------------------|--------------------|-----------|-------------------|----------------|-------------|
| Western Oregon / Willamette Valley   | Low                | 46–54°F   | 69–85%            | W 9 mph G17    | Low         |
| Central Oregon (Deschutes/Jefferson) | Moderate           | 36–50°F   | 46–72%            | SW 14 mph G22  | Moderate    |
| Eastern Oregon (Morrow/Umatilla)     | Low                | 35–41°F   | 82–92%            | SW 13 mph G24  | Low         |
| Southern Oregon (Jackson/Klamath)    | Low                | 46–55°F   | 55–75%            | SW 7–9 mph G15 | Low         |
| South-Central Oregon (Lake/Harney)   | Moderate           | 41–51°F   | 64–80%            | SW 26 mph G41  | Moderate    |
| Oregon Coast                         | Low                | 43–50°F   | 67–85%            | W 7 mph G11    | Low         |

6. STATEWIDE FIRE TREND — Active Fire Count & Acres Burning (2026 YTD, Actual Data)

Orange shaded area = acres of active fire on each reporting date (left axis; non-cumulative — reflects containment as fires are extinguished). Navy line = count of all active Oregon wildfires on each reporting date (right axis). Data sourced from ODF field reports; new rows appended daily.

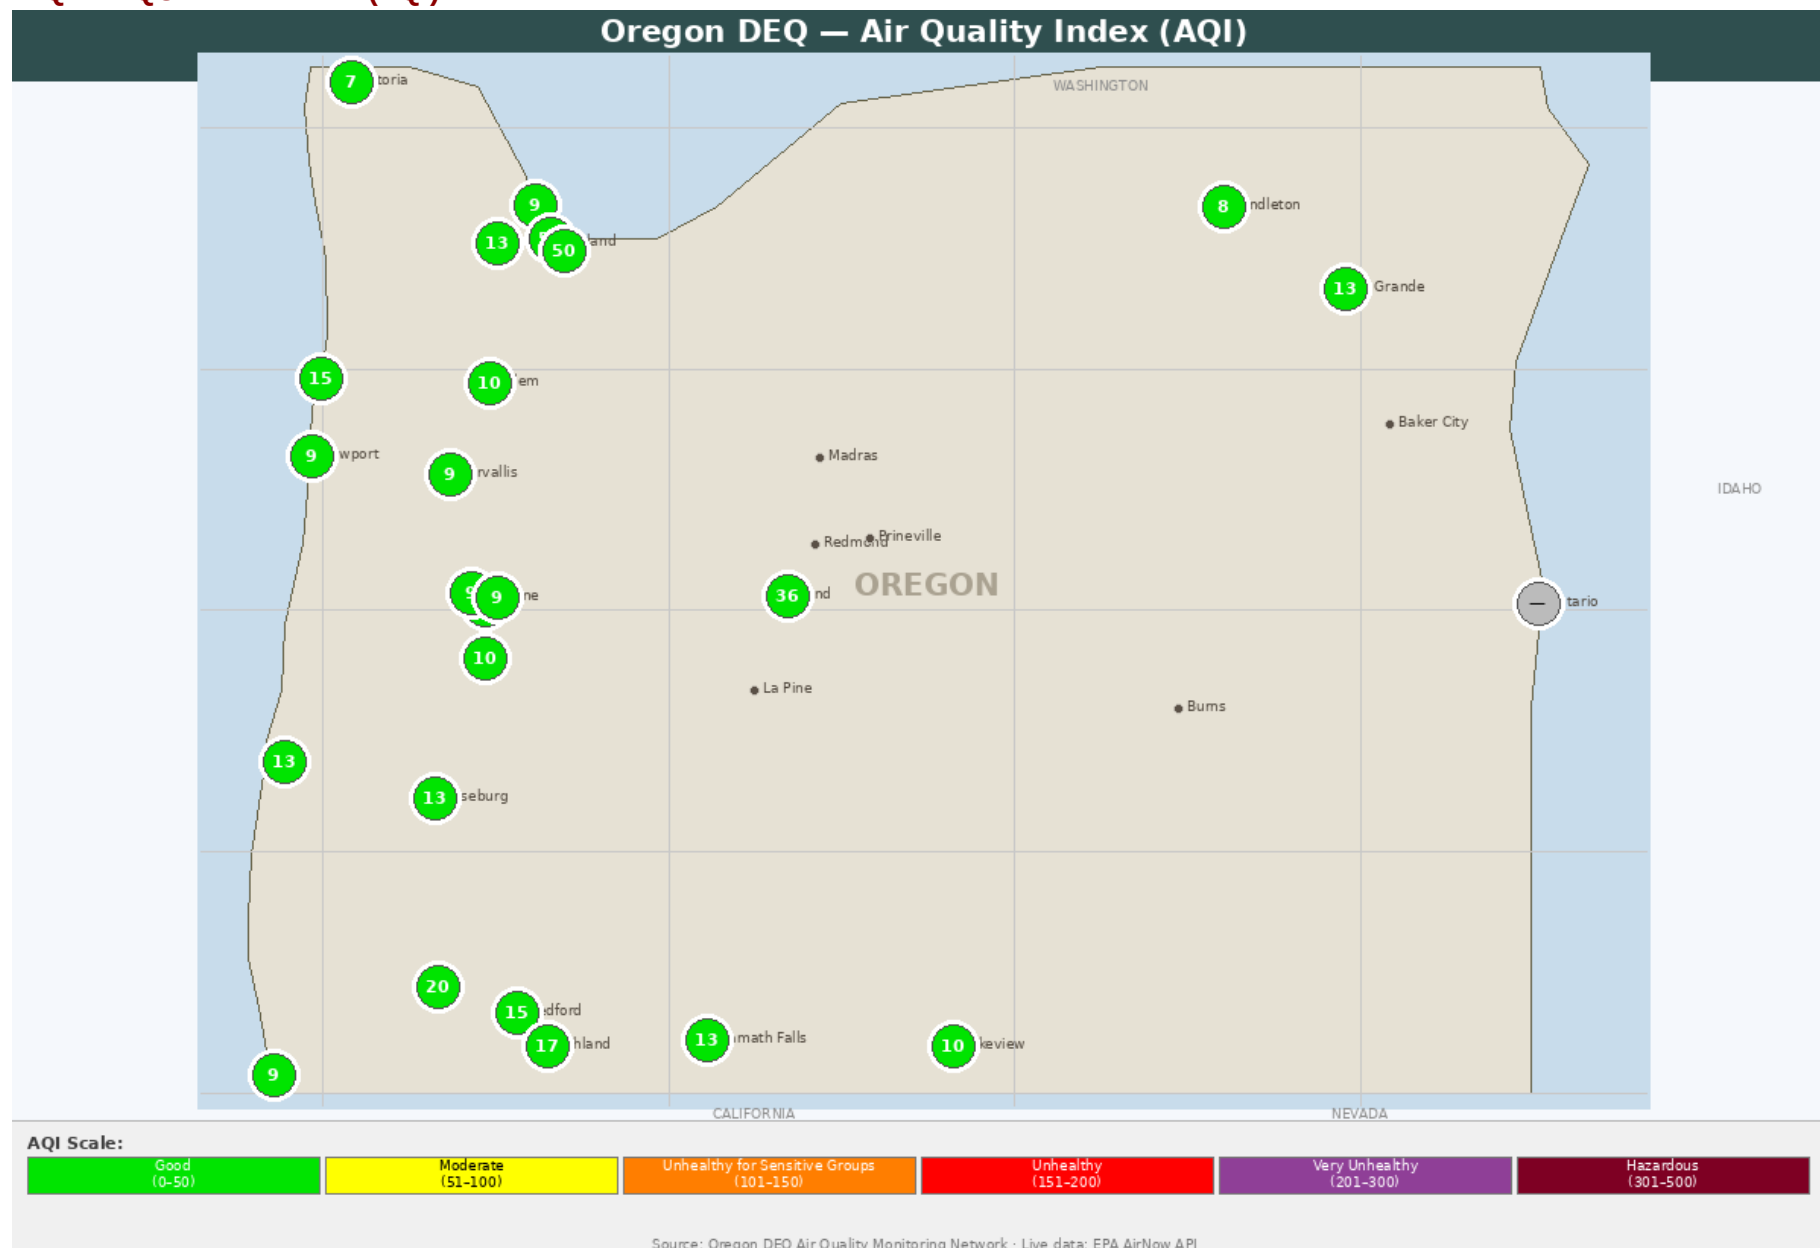

## 7. OREGON FIRE LOCATION MAP

Fire locations plotted at reported coordinates or county centroid. Red marker = active; green marker = contained. Reference cities shown as gray dots.
